RE: Manager's Report

Board Meeting January 6, 2026

Roads

We will be using Navajo Quarry for base material. Heavy Duty trailer has been repaired-four new tires installed, will be installing remaining four tires this month. This will allow us to transport equipment to the roads being worked on.

SWCD

Trash truck had all six tires replaced. Trash truck will be needing repairs to electrical-brake lights, and an inspection/repair on transmission since it sometimes does not engage in gear. These are safety issues that need to be addressed.

Finances

Account balances have been included in the consent agenda.

Meetings

Other

Interim GM and one employee are enrolled in Golden Pacific Trucking School in Bakersfield, barring any setbacks the district will have two more CDL class A license holders within two months.

Humberto Renteria
Interim General Manager CVCS
